

POLYMER BLENDS

ABSTRACT OF THE DISCLOSURE

Disclosed are polymer blends comprising a mixture of

- (A) at least one polyester prepared by the reaction of at least one diol with at least one dicarboxylic acid or dialkyl ester thereof in the presence of a metallic catalyst;
- (B) at least one phosphite ester compound; and
- (C) at least one hindered amine light stabilizer.

The polymer blends exhibit improved color, especially when used as a component of a polyester/polycarbonate blend.
